WATER LOSS AUDITS 2022

Validated water loss audits are due to IFA by August 1, 2022.

commonwealthengineers.com/wateraudits

All Community Water Systems that supply water to their users via meters are required to complete a water audit annually.

AUDIT RESOURCES

WATER AUDITS/VALIDATIONS

01 Water Audit
Water audit is an evaluation of the amount of water a utility produces compared to the amount of water it sells.

02 Water Audit Validation
Water audit validation aims to identify and appropriately correct inaccuracies in water loss data and audit methodology.

**NEW
WATER AUDIT CLIENT**

**RETURNING
WATER AUDIT CLIENT**

**LEVEL 1 VALIDATION
WITHOUT AN AUDIT**

The IFA will conduct no-cost water audit workshops where utilities will receive instruction on how to complete a water audit. At some workshops, utilities will be able to complete their water audits onsite. Attendees will be eligible for Continuing Education and Professional Development hours. Workshop dates and locations will be posted on the IFA Water Loss Audit website. A series of free webinars on water loss is also being offered by IFA on its Water Loss Audit website. Links to these resources and additional contacts are available at commonwealthengineers.com/wateraudits.
