

## Engineering and Consulting Service Excellence Since 1974

# NOW HIRING: INDUSTRIAL PROJECT ARCHITECT

## Job Description:

Commonwealth Engineers, Inc. has an opening for a full-time industrial project architect for the planning, design, and construction of water resources facilities. The position will involve coordination with our corporate Mechanical, Electrical & Plumbing (MEP) team and CAD/Revit BIM Design team. This is an excellent opportunity for a multi-talented and creative project architect interested in furthering their career in the relatively recession-proof utility engineering industry. This opportunity is available out of our Indianapolis office, although regional offices may be considered for highly qualified candidates.

## Responsibilities:

In the context of water resources including dams, levees, potable water, wastewater, and stormwater facilities:

- Develop feasibility evaluations and planning-level design reports
- Perform general building design
- Participate in client project team meetings
- Coordinate with the Mechanical, Electrical & Plumbing (MEP) team and CAD/Revit BIM Design team to develop design goals, schedules, and budgets
- Coordinate with sub-consultant architects in the areas of residential, commercial, institutional, and landscape architecture
- Collaborate with clients, engineers, and contractors to ensure project success
- Develop contract documents, technical documentation, detailed specifications, and architectural permits
- Oversee construction administration
- Ensure compliance with building codes, regulations, and safety standards
- Perform project site inspections

## Qualifications/Skills:

- Bachelor's Degree in Architecture from an accredited university
- Registered Architect (or working towards RA with a minimum of 2+ years of experience with an architecture/design firm)
- Knowledge of Design Build, Civil, and Structural Engineering
- Proficient in AutoCAD, Revit, and other design software
- Understanding of building codes, regulations, and safety standards
- Ability to manage multiple projects simultaneously
- Dependable and professional team player
- Proficient in Microsoft Office Suite (Outlook, Publisher, Word, Excel, PowerPoint)
- Strong written and verbal communication skills
- Desire to acquire a general understanding of the water resource industry

## Benefits:

For the past 50 years, Commonwealth has earned our reputation as a leader in the water resource industry. Join our award-winning engineering and consulting firm and receive these benefits:

- Competitive base salary
- Medical, dental, and vision insurance
- Long-term and short-term disability insurance including maternity leave
- Supplemental insurance
- AD&D coverage
- Matching 401(k) & profit sharing
- Annual performance bonus
- Additional incentive pay for each hour worked in excess of the 40-hour schedule
- Paid time off and holidays
- Flexible scheduling
- Professional development opportunities
- Employee outings

Applicants should e-mail a cover letter and resume to [hiring@contactcei.com](mailto:hiring@contactcei.com) or submit online:
